

CRMP-2 (phospho Thr509) Polyclonal Antibody

| Catalog No : | YP0814 | | |
|-------------------------|--|--|--|
| Reactivity : | Human;Mouse;Rat | | |
| Applications : | WB;IHC;IF;ELISA | | |
| Target : | CRMP-2 | | |
| Fields : | >>Axon guidance | | |
| Gene Name : | DPYSL2 | | |
| Protein Name : | Dihydropyrimidinase-related protein 2 | | |
| Human Gene Id : | 1808 | | |
| Human Swiss Prot | Q16555 | | |
| No : Mouse Gene Id : | 12934 | | |
| Mouse Swiss Prot | O08553 | | |
| No : Rat Gene Id : | 25416 | | |
| Rat Swiss Prot No : | P47942 | | |
| Immunogen : | The antiserum was produced against synthesized peptide derived from human CRMP-2 around the phosphorylation site of Thr509. AA range:475-524 | | |
| Specificity : | Phospho-CRMP-2 (T509) Polyclonal Antibody detects endogenous levels of CRMP-2 protein only when phosphorylated at T509. | | |
| Formulation : | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. | | |
| Source : | Polyclonal, Rabbit,IgG | | |
| Dilution : | WB 1:500 - 1:2000. IHC 1:100 - 1:300. ELISA: 1:5000 IF 1:50-200 | | |

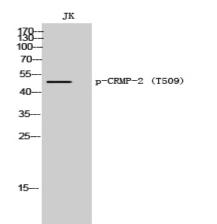

| 0 | , | | |
|---------------------------|---|--|--|
| Purification : | The antibody was affinity-purified from rabbit antiserum by affinity- | | |
| | chromatography using epitope-specific immunogen. | | |
| Concentration : | | | |
| Concentration : | 1 mg/ml | | |
| Storage Stability : | -15°C to -25°C/1 year(Do not lower than -25°C) | | |
| Observed Band : | 50kD | | |
| Cell Pathway : | Axon guidance; | | |
| Background : | This gene encodes a member of the collapsin response mediator protein family. Collapsin response mediator proteins form homo- and hetero-tetramers and facilitate neuron guidance, growth and polarity. The encoded protein promotes microtubule assembly and is required for Sema3A-mediated growth cone collapse, and also plays a role in synaptic signaling through interactions with calcium channels. This gene has been implicated in multiple neurological disorders, and hyperphosphorylation of the encoded protein may play a key role in the development of Alzheimer's disease. Alternatively spliced transcript variants encoding multiple isoforms have been observed for this gene. [provided by RefSeq, Sep 2011], | | |
| Function : | function:Necessary for signaling by class 3 semaphorins and subsequent remodeling of the cytoskeleton. Plays a role in axon guidance, neuronal growth cone collapse and cell migration.,PTM:3F4, a monoclonal antibody which strongly stains neurofibrillary tangles in Alzheimer disease brains, specifically labels DPYSL2 when phosphorylated on Ser-518, Ser-522 and Thr-509.,similarity:Belongs to the DHOase family. Hydantoinase/dihydropyrimidinase subfamily.,subunit:Homotetramer, and heterotetramer with CRMP1, DPYSL3, DPYSL4 or DPYSL5 (By similarity). Interacts through its C-terminus with the C-terminus of CYFIP1/SRA1. Interacts with HTR4.,tissue specificity:Ubiquitous., | | |
| Subcellular Location : | Cytoplasm, cytosol . Cytoplasm, cytoskeleton . Membrane . Tightly but non- covalently associated with membranes. | | |
| Expression : | Ubiquitous. | | |
| Tag : | orthogonal | | |
| Sort : | 4582 | | |
| No4 : | 1 | | |

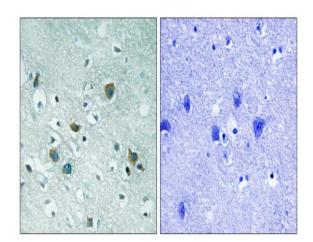

Products Images

Western Blot analysis of various cells using primary antibody diluted at 1:1000(4°C overnight). Secondary antibody:Goat Antirabbit IgG IRDye 800(diluted at 1:5000, 25°C, 1 hour). Cell lysate was extracted by MinuteTM Plasma Membrane Protein Isolation and Cell Fractionation Kit(SM-005, Inventbiotech,MN,USA).

Western Blot analysis of JK cells using Phospho-CRMP-2 (T509) Polyclonal Antibody

Immunohistochemistry analysis of paraffin-embedded human brain, using CRMP-2 (Phospho-Thr509) Antibody. The picture on the right is blocked with the phospho peptide.
