

## KV115 rabbit pAb

|                              |                                                                                                                       |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No :</b>          | YN5287                                                                                                                |
| <b>Reactivity :</b>          | Human;Rat;Mouse;                                                                                                      |
| <b>Applications :</b>        | WB                                                                                                                    |
| <b>Target :</b>              | KV115                                                                                                                 |
| <b>Protein Name :</b>        | Ig kappa chain V-I region Rei                                                                                         |
| <b>Human Swiss Prot No :</b> | P01607                                                                                                                |
| <b>Immunogen :</b>           | Synthesized peptide derived from human KV115 AA range: 21-71                                                          |
| <b>Specificity :</b>         | This antibody detects endogenous levels of human KV115                                                                |
| <b>Formulation :</b>         | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| <b>Source :</b>              | Polyclonal, Rabbit,IgG                                                                                                |
| <b>Dilution :</b>            | WB 1:1000-2000                                                                                                        |
| <b>Purification :</b>        | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Concentration :</b>       | 1 mg/ml                                                                                                               |
| <b>Storage Stability :</b>   | -15°C to -25°C/1 year(Do not lower than -25°C)                                                                        |
| <b>Molecularweight :</b>     | 12kD                                                                                                                  |
| <b>Sort :</b>                | 17570                                                                                                                 |
| <b>No4 :</b>                 | 1                                                                                                                     |
