

NuMA (phospho-Thr2055) rabbit pAb

Catalog No :	YP1423
Reactivity :	Human
Applications :	WB
Gene Name :	NUMA1 NUMA
Protein Name :	NuMA (Thr2055)
Human Gene Id :	4926
Human Swiss Prot No :	Q14980
Immunogen :	Synthesized phospho peptide around human NuMA (Thr2055)
Specificity :	This antibody detects endogenous levels of Human NuMA (phospho-Thr2055)
Formulation :	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source :	Rabbit
Dilution :	WB 1:1000-2000
Purification :	The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.
Concentration :	1 mg/ml
Storage Stability :	-20°C/1 year
Observed Band :	240
Background :	nuclear mitotic apparatus protein 1 (NUMA1) Homo sapiens This gene encodes a large protein that forms a structural component of the nuclear matrix. The encoded protein interacts with microtubules and plays a role in the formation and organization of the mitotic spindle during cell division. Chromosomal translocation of this gene with the RARA (retinoic acid receptor, alpha) gene on chromosome

17 have been detected in patients with acute promyelocytic leukemia. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Nov 2013],

Function :

function:May be a structural component of the nucleus.,subcellular location:Dissociates from condensing chromosomes during early prophase, before the complete disintegration of the nuclear lamina. As mitosis progresses it reassociates with telophase chromosomes very early during nuclear reformation, before substantial accumulation of lamins on chromosomal surfaces is evident.,

Subcellular Location :

Golgi membrane,spindle pole,nucleus,nucleoplasm,chromosome,cytoplasm,cen trosome,spindle,cytosol,spindle microtubule,cell cortex,nuclear matrix,dendrite,neuronal cell body,apical p

Expression :

Brain,Epithelium,Kidney,Lung,Muscle,Ovary,Testis,Uterus,
