

## AT2L1 Rabbit pAb

CatalogNo: YN0424

### Key Features

#### Host Species

- Rabbit

#### Reactivity

- Human, Mouse

#### Applications

- WB, ELISA

#### MW

- 54kD (Observed)

#### Isotype

- IgG

### Recommended Dilution Ratios

WB 1:500-2000

ELISA 1:5000-20000

### Storage

**Storage\*** -15°C to -25°C/1 year (Do not lower than -25°C)

**Formulation** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

### Basic Information

**Clonality** Polyclonal

### Immunogen Information

**Immunogen** Synthesized peptide derived from human protein . at AA range: 120-200

**Specificity** AT2L1 Polyclonal Antibody detects endogenous levels of protein.

### Target Information

**Gene name** AGXT2L1

|                       |                                                                                                                                                  |                         |                          |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|--------------------------|
| Protein Name          | Ethanolamine-phosphate phospho-lyase (Alanine--glyoxylate aminotransferase 2-like 1)                                                             |                         |                          |
|                       | Organism                                                                                                                                         | Gene ID                 | UniProt ID               |
|                       | Human                                                                                                                                            | <a href="#">64850</a> ; | <a href="#">Q8TBG4</a> ; |
|                       | Mouse                                                                                                                                            |                         | <a href="#">Q8BWU8</a> ; |
| Cellular Localization | Mitochondrion .                                                                                                                                  |                         |                          |
| Tissue specificity    | Alzheimer cortex,Brain,Kidney,                                                                                                                   |                         |                          |
| Function              | cofactor:Pyridoxal phosphate .,similarity:Belongs to the class-III pyridoxal-phosphate-dependent aminotransferase family.,subunit:Homotetramer., |                         |                          |
