

## LIN9 Rabbit pAb

CatalogNo: YN7202

### | Key Features

#### Host Species

- Rabbit

#### Reactivity

- Human, Mouse

#### Applications

- WB

#### MW

- 60kD (Calculated)

#### Isotype

- IgG

### | Recommended Dilution Ratios

WB 1:500-2000

### | Storage

#### Storage\*

-15°C to -25°C/1 year(Do not lower than -25°C)

#### Formulation

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

### | Basic Information

#### Clonality

Polyclonal

### | Immunogen Information

#### Immunogen

Synthesized peptide derived from human LIN9

#### Specificity

This antibody detects endogenous levels of LIN9 at Human, Mouse

### | Target Information

#### Gene name

LIN9 BARA TGS

|                       |   |                          |                          |
|-----------------------|---|--------------------------|--------------------------|
| Protein Name          | Protein lin-9 homolog (HuLin-9) (hLin-9) (Beta subunit-associated regulator of apoptosis) (TUDOR gene similar protein) (Type I interferon receptor beta chain-associated protein) (pRB-associated protein)                  |                          |                          |
|                       | Organism  | Gene ID                  | UniProt ID               |
|                       | Human   | <a href="#">286826</a> ; | <a href="#">Q5TKA1</a> ; |
|                       | Mouse   | <a href="#">72568</a> ;  | <a href="#">Q8C735</a> ; |
| Cellular Localization | Nucleus, nucleoplasm . Found in perinucleolar structures. Associated with chromatin.  |                          |                          |
| Tissue specificity    | Expressed in thymus and testis.   |                          |                          |
| Function              | Acts as a tumor suppressor. Inhibits DNA synthesis. Its ability to inhibit oncogenic transformation is mediated through its association with RB1. Plays a role in the expression of genes required for the G1/S transition. |                          |                          |
